

Cisco AnyConnect Client Configuration and Use Instructions

mlw 5/09/13

To Connect

To launch the program, Start->Programs->Cisco->Cisco AnyConnect Secure Mobility Client->Cisco AnyConnect Secure Mobility Client.

Enter “visa.aps.anl.gov” and click on “Connect”.

For VPN access to the APS Network, in the AnyConnect pop-up window:

- Use the Group pull-down menu to select the “VPN-Secure” group
- For username, enter your ANL username
- For password, enter: PIN followed by the Crypto card output

Click on “OK”

Click on “Accept” to acknowledge the DOE Warning banner:

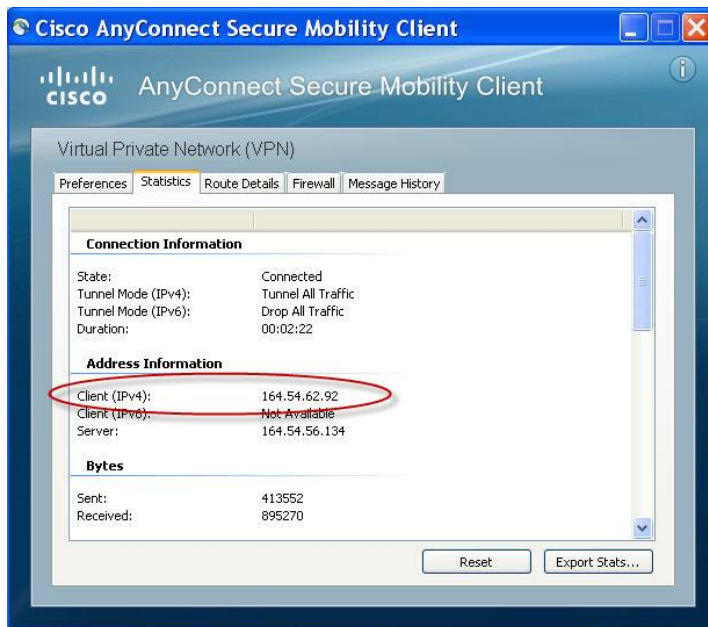

Optionally, you can check your connection:

Launch the Cisco AnyConnect client, by clicking on the icon in the System Tray. To view detailed information about your connection, such as the IP address your client has been assigned, click on “Advanced”

Click on the “Statistics” tab to view your IP address, which can be helpful in troubleshooting a VPN problem.

To Disconnect

Launch the Cisco AnyConnect client, by clicking on the icon in the System Tray. To disconnect, click on “Disconnect”.
